**FRAUD RISK ASSESSMENT****I. BRAINSTORMING CONFERENCE**

Date: \_\_\_\_\_

**Instructions:** Members of the audit team are required to discuss the susceptibility of the government's financial statements to material misstatement due to fraud. The discussion should include an open exchange of ideas (brainstorming). The discussion should also emphasize the importance of exercising professional skepticism throughout the audit. The discussion may occur prior to, or in conjunction with, other audit planning procedures, but should take place each year.

If the audit is a Single Audit, completion of this procedure should include consideration of both the audit of the financial statements and the federal awards.

**FRAUD RISK ASSESSMENT**

Matters that should be discussed include:

- a. How and where the financial statements might be materially misstated due to fraud.
- b. How management could perpetrate and conceal fraudulent financial reporting.
- c. How the perpetrators could misappropriate government assets.
- d. Known external and internal factors affecting the government that might (1) create incentives/pressures to commit fraud, (2) provide the opportunity for fraud to take place, and (3) reveal attitudes or rationalization about why fraud is acceptable behavior.
- e. The nature and risk of management override of controls.
- f. How best to respond to these fraud risks through the design of audit procedures.
- g. The importance of maintaining an appropriate attitude of professional skepticism throughout the audit when considering the risk of material misstatement due to fraud.

The discussion should not be influenced by past favorable experience with the integrity of management.

The discussion should abandon neutrality and presume the possibility of dishonesty at various levels of management.

The discussion should focus on the financial statement areas vulnerable to fraud presuming that management, employees, or volunteers were inclined to perpetrate fraud.

3. Did information arise during the brainstorming meeting that may be relevant to identifying risks of material misstatement due to fraud?

**FRAUD RISK ASSESSMENT****II. INQUIRIES ABOUT THE RISKS OF FRAUD**

**Instructions:** Auditors are required to make inquiries of management and others about the risks of fraud. Inquiries should be made each year in the planning stage of the audit. This form can be used to document the auditor's inquiries of management and other employees. Conducting one-on-one interviews with members of management and other employees is the most appropriate way of accomplishing the objectives of the inquiry process. Management interviewed should include the County Auditor, County Treasurer, County Board of Supervisors and anyone else who's job responsibility could have a material effect on the financial statements.

If the audit is a Single Audit, completion of this procedure should include consideration of both the audit of the financial statements and the federal awards. Alternatively, the auditor may wish to complete separate forms.

(A separate form should be used for each person interviewed)

List any additional fraud factors or conditions identified as being present. Additional factors may have been identified through inquiry of management in the entrance conference. Also, document any compensating controls.

If improper revenue recognition was not identified as a risk of material misstatement due to fraud, describe the reasons regarding how that presumption was overcome.

## **PRELIMINARY AUDIT STRATEGY** **FRAUD RISK ASSESSMENT**

#### IV. RESPONSE TO FRAUD RISKS

The way the auditor responds to the results of the fraud risk assessment depends on the nature and significance of the fraud risks identified and on the government's programs and controls that address such risks. Auditors respond to the results of the fraud risk assessment in three ways: (1) an overall response as to how the audit is conducted; (2) specific responses involving modification of the nature, timing, and extent of procedures to be performed; and (3) responses to further address the risk of management override of controls.

1. *Overall response* – Describe your overall response to identified fraud risks, including (1) assignment of personnel and supervision, (2) scrutiny of management’s selection and application of significant accounting principles, and (3) including an element of unpredictability in audit procedures and tests.

---

---

---

2. *Specific responses* – Describe your specific responses to identified fraud risks, including modification of the nature, timing, and extent of audit procedures.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page, typical of notebook paper. There are no margins, text, or other markings on the page.

**LANDFILL** Sample Landfill**June 30, 2006****PRELIMINARY AUDIT STRATEGY**  
**FRAUD RISK ASSESSMENT**

3. *Response to address management override of controls* – Because management override of controls can occur in unpredictable ways, the risk of management override of controls is always an identified fraud risk and the auditor is required to perform certain specified procedures to respond to such risk. These procedures relate to (1) examining journal entries and other adjustments, (2) reviewing accounting estimates for biases, and (3) evaluating the business rationale for significant unusual transactions.
